

# Polar Bears In Captivity

A polar bear's natural home is in the Arctic where there is lots of ice. When a polar bear is taken from its natural habitat to a zoo, the zoo environment must be adapted to meet the animal's needs. How do you think each of the following polar bear's needs can be met at a zoo?

1. Colour of cage walls and flooring \_\_\_\_\_

\_\_\_\_\_

2. Temperature \_\_\_\_\_

\_\_\_\_\_

3. Food and water \_\_\_\_\_

\_\_\_\_\_

4. Plant life \_\_\_\_\_

\_\_\_\_\_

5. Wind \_\_\_\_\_

\_\_\_\_\_

6. Length of day \_\_\_\_\_
